

COVID-19

A PRAYER GUIDE

Dear God, we pray for our...

HEALTH CARE WORKERS, who are on the front lines. We pray for their health and for wisdom as they gather resources and adjust systems to care for their patients. We pray that we would each look to the interests of others above our own so as to not overwhelm our hospital systems with preventable illnesses and infections.

SUPERINTENDENTS, who are navigating uncharted waters right now. We pray for wisdom and collaborative partners as they ensure that students have the resources they need to stay healthy and able to learn. We pray also for wisdom as they adjust the systems for remote learning. Pray for grace from students and their families.

TEACHERS, who are reaching out to ensure that their students are safe and healthy and working hard to create online lessons for their students, even while caring for their own children and families. We pray for grace from students and their families.

PARENTS AND CAREGIVERS, who are juggling the care of their children and their own jobs. We pray especially for those whose jobs pay by the hour or require them to work in person. We pray for safety and for Your provision for these workers and their companies during this time. We pray for grace from teachers and school districts.

PASTORS AND CHURCH LEADERS, who are continuing to care for their congregation members and communities during this time. We pray for wisdom to love well and wisely. We pray that believers would continue to spend time in the Word and that we would find creative ways to fellowship and build one another up.

CITY, STATE, AND NATIONAL LEADERS, as they set up guidelines, systems, and infrastructures to protect all of us. We pray for humility and a willingness to listen to the experts during this crisis.

CHILDREN, as their lives are being disrupted and as they may or may not understand what is going on around them right now. We pray especially for Your provision and safety for the children with difficult home situations.

In Jesus' name we pray, Amen.
